- Tehsil Topi, District Swabi,  
KPK Pakistan

### EDUCATION

Government High School Maini

**2019-2021**

Abbottabad University of Science  
and Technology (AUST) –  
Abbottabad, Pakistan

**2021-2025**

### SKILLS

- React.js
- JSX
- React Hooks (useState, useEffect, useContext etc.)
- Component-Based Architecture
- State Management (Redux / Context API / Zustand)
- React Router
- API Integration (REST / Axios / Fetch)
- Reusable UI Components

### LANGUAGE

Urdu

Pashto

English

### SUMMARY

I am a React.js Frontend Developer with strong skills in building fast, responsive, and user-friendly web applications. I specialize in React components, hooks, API integration, and modern UI design using TailwindCSS. I focus on clean code, performance optimization, and creating seamless user experiences. I enjoy solving problems and turning ideas into functional, real-world products.

### EXPERIENCE

#### 2024- Present

Developed multiple responsive web applications using React.js.  
Built reusable components using Hooks (useState, useEffect, useContext).  
Integrated APIs using Fetch/Axios and managed global state with Redux/Context API.  
Converted UI designs (Figma) into pixel-perfect React interfaces.  
Worked with TailwindCSS/Bootstrap to create modern, clean UI layouts.  
Implemented routing using React Router and optimized app performance.  
Used Git & GitHub for version control and project collaboration.  
Worked closely with clients to understand requirements and deliver solutions on time., hooks, API integration, and modern UI design using TailwindCSS. I focus on clean code, performance optimization, and creating seamless user experiences. I enjoy solving problems and turning ideas into functional, real-world products.
